The Manager seeks to achieve TraHK's investment objective by investing all, or substantially all, of TraHK's assets in shares in the constituent companies of the Index ("Index Shares") in substantially the same weightings as they appear in the Index.</p>	<p><b>INDEX DESCRIPTION</b> The Hang Seng Index is composed of a representative sample of the shares of constituent companies listed on SEHK which generally have high market value and liquidity. It is designed such that it reproduces the performance of a hypothetical portfolio made up of the shares of the constituent companies with an interest in each constituent company which is always proportionate to such constituent company's market capitalisation adjusted to take into account the freefloat of the relevant shares.</p>
